Part I – OFFICE (Word)

OF10

(Time: 45 Minutes)

Marks: 50

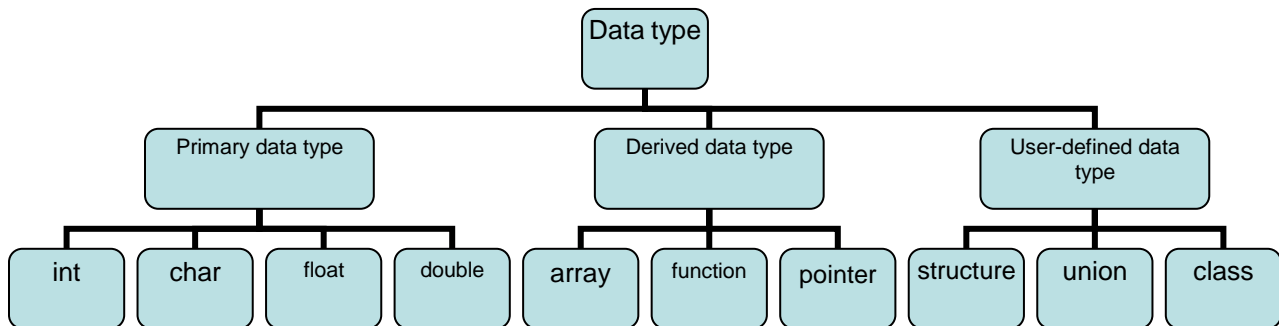

Question No 1: Create a document as follows

Data types in C

A C language programmer has to tell the system before-hand, the type of numbers or characters he is using in his program. These are **data types**. There are many data types in C language.

A C programmer has to use appropriate data type as per his requirement. C language data types can be broadly classified as :-

- Primary data type
- Derived data type
- User-defined data type

Question No 2: Create a flowchart as shown below.
